

IBEX - International Biotechnology Experts Initiating and Managing International R&D Projects

Are you ready for Horizon 2020?

IBEX helps you to set up and manage EU projects

The European Commission (EC) funds innovative R&D projects, such as the upcoming [Horizon 2020 program](#) which will run from 2014 to 2020 with an €80 billion budget. Horizon 2020 is the successor to the Framework Programme for Research (FP7) and is the EU's new programme for research and innovation. Applying for EC funding is highly competitive and brings along several challenges, such as:

- addressing all requirements for particular calls for proposals
- establishing an international consortium of interdisciplinary partners
- preparing a proposal and budget
- putting in place a professional project management structure

Our expertise

IBEX Ltd. specializes in applying for EC funds in the fields of human and animal health, food and nutrition, agriculture, environment, energy, ICT, NMP and new production technologies. Our core competences include:

- submission and management of several large FP6 and FP7 EU projects
- an extensive network across Europe to access consortium partners
- a multi-disciplinary team with excellent organizational skills

Our methodology

IBEX works closely with leading universities, hospitals, research institutions, large companies and SMEs in the project set-up phase during which key decisions have to be made. IBEX' methodology for accessing EU funds includes:

- due diligence of specific calls for proposals
- searching for potential partners to establish an international consortium
- leading consortium consensus-driven discussions to define project outline
- drafting proposals and developing justifiable budgets
- insight to EC evaluation criteria
